

Make a Chef's Hat

YOU NEED:

- a soft tape measure
- a piece of white card (at least A3 size)
- a ruler
- a pencil
- scissors
- white crepe paper or a white paper tablecloth about 30cm x 60cm
- sticky tape

- 1** Ask a partner to measure all the way around your head over your ears using a soft tape measure.

- 2** Measure and cut out a strip of card a couple of centimetres longer than the length you measured and about 10cm high.

- 3** Fold the strip of card in half LONGWAYS then unfold it.

- 4** Lay one of the long edges of your crepe paper or tablecloth on top of the card so it meets the fold of the card. Stick one corner of the paper to the card.

- 5** Make about 10 little folds along the same edge of the paper to gather it up. Stick them to the card as you go along.

- 6** Fold up the bottom edge of the card then bend the two ends of the card to meet each other. Overlap them slightly then stick some pieces of tape all the way up the join.

- 7** Gather up the top of the paper to make a point and wrap some sticky tape around it.

- 8** Push down the point inside the hat then pull it down from the inside, making the hat puff out.
