

Be a Popcorn Seller!

POPI

WARNING:
Needs
adult help!

First check that you have all the equipment and ingredients you need - then wash your hands!

To make some popcorn containers you will need:

- an old shoebox
- some paints and a brush
- some stripey wrapping paper
- a ruler
- scissors
- sticky tape
- some large empty yoghurt pots - washed and dried

To make popcorn you will need:

- a popcorn pan or a large saucepan with a lid
- some popcorn kernels
- some plastic food bags
- a pair of oven gloves (for steps 5 and 6)
- a stove
- some toppings (see below)

Paint your shoebox then leave it to dry.

Carefully cut some pieces of wrapping paper about 26cm by 12cm.

Wrap one piece of paper around each yoghurt pot, sticking the paper together at the back of the pot.

Put about a tablespoon of olive oil in your pan with a handful of popcorn kernels.

Put the lid firmly on the pan then ASK AN ADULT to put the pan on the hob over a medium heat. When you hear the kernels start to pop, the adult should turn the handle of the popcorn pan or shake the saucepan with the lid on.

Once the popping has definitely stopped, turn off the heat and carefully open the pan.

Put some of the popcorn in a plastic bag or bowl, add a LITTLE of one of these toppings then shake!

TOPPINGS

- grated cheese
- dried mixed herbs
- powdered Parmesan
- salt - remember, a LITTLE
- Brewer's yeast powder
- cinnamon powder
- raisins

Fill up your yoghurt pots with popcorn then put the pots in your shoebox and offer them to your friends!
