

# Make

# CONCERTINA FRUITS!

Ask an adult if you can go fruit picking for real fruits!

You need: • different coloured pieces of A4 paper • ruler • pen or pencil • children's scissors • felt-tip pens • glue stick

1 Cut up a red piece of paper to make a long strip about 7cm wide x 30cm long.

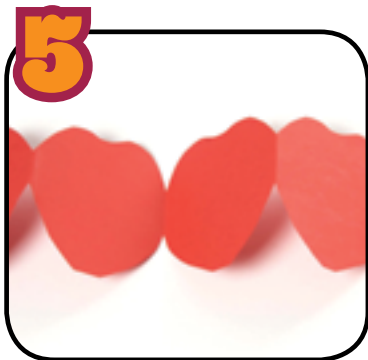

2 Fold the strip in half. Hold the sides and push them together to fold the paper into an S-shape - unfold to see your concertina.

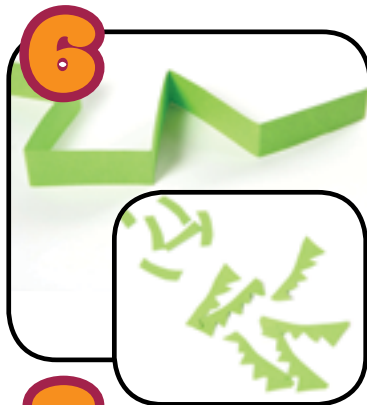

3 Fold up the piece of paper again and use your pen or pencil to draw the outline of a strawberry shape on it.

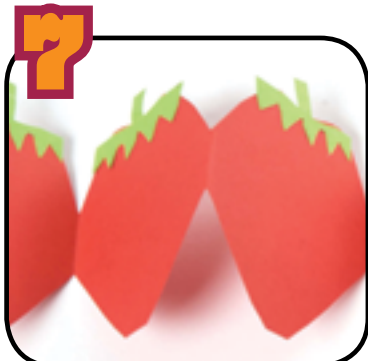

4 Hold the folded paper firmly and carefully cut round the shape but don't cut all the way through the sides.

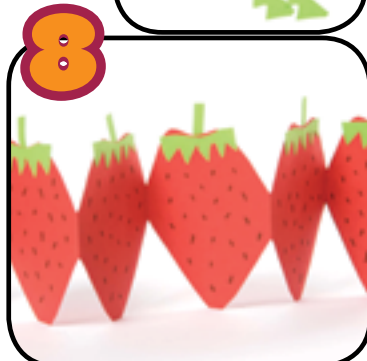

5 Open out the paper to show your concertina strawberry shapes.

6 Fold a thin strip of green paper in the same way. Cut out rows of tiny triangles to make strawberry tops and rectangles for stalks.

7 Stick the tops and stalks on your strawberries.

8 Use a felt-tip pen to draw some little dots on your strawberries to look like seeds.
